## **RED-POWER**

🏵 MITSUBA

HP 800 - WRAP

THE NEW MITSUBA RED POWER IS ONE of the best performing wrap SB SC belt in the market. The innovative design opens up new scope in designing frictional power in wrap drive.

Power Transmission (%)						
<b>-</b>				-		
<b>—</b> — — —				-		
<b>F</b>		-		-

<u> </u>		-		-		
		-		-		
OLD BELT HP - 800						

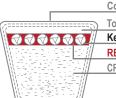

Belt sidewall has better grip to the pulley result in better power transmission in higher speed. The better grip, the better power transmission drive.

Belt Elongation (%)							
			—	_	—	-	
	_		_	_	_	Ξ.	
<b>—</b> —	=		_	_	_	-	
	-		_	—	—	-

			_	_	Ξ.	Ξ.	
	-			-	_	-	
	-			-	_	-	
	-			-	_	_	
OLD E	BELT	HP - 800					

The elongation of the belt creat the belt slip and loss in power transmission. The less elongation, the greater pulley contact, result in higher power transmission.

Belt Deterioration (%)							
<b>-</b>	_	_	_	_	_	_	-
┝━	_	_	—	_	—	—	-
	_	—	—	—	—	—	-

<b></b> _	_	—	-		-	—	-
<b> -</b> -	—	—	-		-	—	-
OLD BELT HP -800							

The deterioration of the belt results in the shortening of the belt working life. The less deterioration, the longer belt life.

Cover Fabric (Cotton) Top Cushion Rubber Kevlar Cord RED-POWER Cushion Rubber CR Rubber + More Fiber Load

## Red Cushion gum

## Special attributes

- Oil & Heat resistant
- Minimal deterioration
- Better grip to the pulley
- Less elongation, Longer belt life
- Higher power transmission drive in highest speed
- Temperature resistant from -20C to 100C
